

Appendix 2. Number of Charales species localities in Vojvodina given by Blaženčić et al. (1995) in comparison with the number of localities known today.

	Species	1995	after 1995	total
1	<i>Chara braunii</i> C. C. Gmel. 1826	5	8	13
2	<i>Chara canescens</i> Desv. & Loisel. in Loisel. 1810	1		1
3	<i>Chara contraria</i> A. Braun ex Kütz. 1845	4	14	18
4	<i>Chara globularis</i> Thuill. 1799	2	39	41
5	<i>Charahispida</i> (L.) Hartm. 1820		5	5
6	<i>Chara intermedia</i> A. Braun in A. Braun, Rabenh. & Stizenb. 1859		2	2
7	<i>Chara tenuispina</i> A. Braun 1835	1	2	3
8	<i>Chara virgata</i> Kütz. 1834	1		1
9	<i>Chara vulgaris</i> L. 1753	13	18	31
10	<i>Nitellopsis obtusa</i> (Desv. in Loisel.) J. Groves 1919		3	3
11	<i>Nitella brachytelea</i> A. Braun 1864		1	1
12	<i>Nitella capillaris</i> (Krock.) J. Groves & Bull.-Webst. 1920	1	1	2
13	<i>Nitella confervacea</i> (Bréb.) A. Braun ex Leonh. 1863		1	1
14	<i>Nitella gracilis</i> (Sm.) C. Agardh 1824		5	5
15	<i>Nitella mucronata</i> (A. Braun) Miq. in H. C. Hall 1840 emend. Wallman 1853		23	23
16	<i>Nitella opaca</i> (Bruzellius) C. Agardh 1824	1	1	2
17	<i>Nitella syncarpa</i> (Truill.) Chevall. 1827		8	8
18	<i>Tolypella glomerata</i> (Desv.) Leonh. 1863		1	1
19	<i>Tolypella intricata</i> (Trentep. ex Roth) Leonh. 1863		4	4
20	<i>Tolypella prolifera</i> (Ziz ex A. Braun) Leonh. 1863		10	10
Sum of all species		9	11	

1995 - number of localities given in the last review of Blaženčić et al. (1995); after 1995 - number of localities discovered after 1995; total - total number of localities known today.
